

erasmus report
Oslo project 2026.05.16.-2026.05.24.
Kővári Szellő Tirza

Our time in Oslo, and the whole two week working experience (first at Budapest, later in Oslo) was determining for me. I felt like we were given the chance to be at the right place, in the right time, which does not happen all that often. The atmosphere of Oslo and Khio university was very welcoming and eye opening at the same time, since the experiences I got there were very different from what I'm used to in Budapest. The work itself was challenging, and I feel that it gave me great tasks and struggles to overcome, and with them I became more. My free time in Oslo was just as productive as the rehearsals before, I walked a lot in the city, we went to a sauna ritual, watched a dance performance at Danses Hus, went island hopping which is by far the kindest memory I have from the trip. All this wouldn't have been so inspiring and adventurous without the beautiful people we met through this process. I really feel called to experience more, dance together, and to see around the world.
